

Lighting Products

1) Fluorescent Lighting

Feature:

1. Long life fluorescent bulb
2. Minimum 3000 operating hours
3. Low heat generation
4. No presence of power supply
5. Easy mounting
6. Electronic ballast operation

LR01

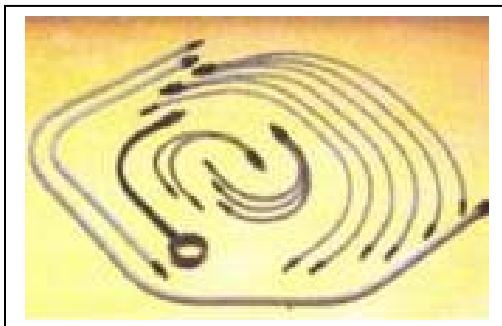

LR02

2) Fiber Optic Lighting

Feature:

1. Fiber optic cold light illumination
2. Heavy duty metal constructed illumination 150 watts quartz halogen lamp.
3. Regulated the intensity of the illumination in order to adjust for glaving
4. Providing cold light for longer periods of operation time.
5. Easy bulb replacement.

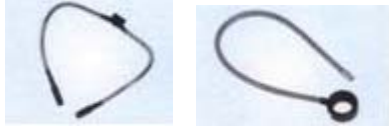

Light Guide

L - 150

FG - P

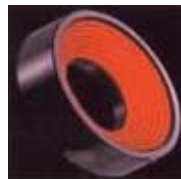

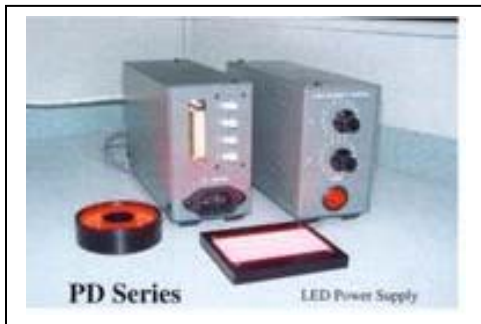

Double gooseneck Ring type

3) LED Lighting

Feature:

1. Homogeneous surface light emission for vision application and microscope inspection
2. Lower power consumption and heat generation
3. Extremely life and available in red, white, green and blue LED
4. Non flickering and stable light source
5. PC control via RS323 and IO adjustment of light intensity.

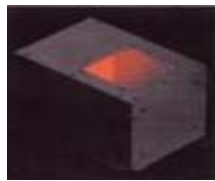

Low angle system

Direct shower light system

Low angle diffused light system

Coaxial light system

Back light system
